The Society for Marketing Professional Services (SMPS) was created in 1973 by a small group of professional services firm leaders who recognized the need to sharpen skills, pool resources, and work together to build their businesses. Today, SMPS is the only national association that brings together business development and marketing professionals from the architectural, engineering, planning, interior design and construction industries. SMPS represents a dynamic network of 6,800+ marketing and business development professionals and 3,700+ firms throughout the U.S. and Canada. Its mission is to advocate for, educate, and connect leaders in the building industry.

Founded in 1981, SMPS Columbus is one of 59 Chapters committed to being the premier resource for those working in the built environment. With a local membership of 135, SMPS Columbus is one of the largest and most respected chapters in the country. The chapter membership consists of firm principals, directors, managers and coordinators who are focused on developing relationships, generating revenues and transforming business through market leadership.
